

# Script: Name Game

**Teacher:** Class!

**Students:** Yes!

**Teacher:** When I point to you *quickly* say your name. (Point to a student; no matter how the child responds say, “Louder please.”)

- If the child is shy, skip them.
- Point to a few kids.

**Teacher:** Repeat after me. (Point at kids – the ones you just pointed to and say their names. Your class repeats the name.)

- Continue until you have the first few kids’ names firmly in mind.
- If you forget a kid’s name, don’t worry AND don’t admit it! Say, “Who’s this, class?” Someone always remembers...it will be like you know, but were testing them! No matter when you forget, say, “Class, quickly tell me who is this?”
- Finish up with a review of all names.
